

Since 2007 Camanche Lake and Upcountry Community Centers have sponsored the Back-Pack 2 School Project. This is a county-wide project which provides backpacks filled with grade appropriate school supplies for children whose families are financially stressed. Without the generosity of local individuals, businesses, and community organizations, many families would struggle to provide these much needed supplies.

Below is the school supply list. You can help by purchasing one or more of these items and bringing them to one of the locations below.

- | | |
